

HOW TO BUILD AN EMERGENCY KIT

Resilience begins with being prepared! When individuals and families have essential supplies on-hand, communities are better equipped to rebound quickly in the wake of emergencies. Use this guide as a checklist to ensure you have what you need for your home preparedness kit. Just in case.

HOME EDITION

7 MILLION

Homes that went without power after Hurricane Irma alone.

150,000

Homes were evacuated due to wildfires in 2017.

\$306 BILLION

Worth of destruction from natural disasters in 2017 alone.

Once power goes out, refrigerated food has 4 hours before it spoils.

FEMA recommends being prepared with 2 weeks of shelf stable food per person, plus a gallon of water per person, per day.

DON'T FORGET YOUR PETS!

HAVE A PLAN

- DECIDE WHERE TO MEET IF YOUR HOME IS NO LONGER SAFE
- KNOW AN ALTERNATE ROUTE TO REACH YOUR HOME
- HAVE A BACK-UP PLAN FOR COMMUNICATION
- EDUCATE FAMILY MEMBERS ON HOW TO SHUT OFF UTILITIES

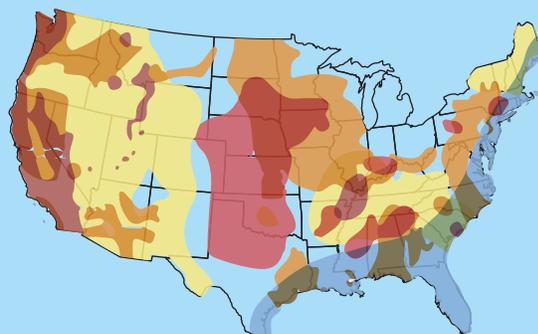

PRESCRIPTIONS

Have backups of any needed prescriptions

KNOW THE RISK

Some weather-related disasters are seasonal, but many are not. Know your zone and be ready at any time for the risks in your area.

EARTHQUAKES - MODERATE

EARTHQUAKES - HIGH

JACK & SPARE TIRE

3 DAYS OF SHELF STABLE FOOD

GALLON OF WATER & FILTER

FIRST AID KIT

TOOL KIT

BLANKETS & WARM CLOTHING

RECHARGEABLE FLASHLIGHT

VEHICLE SAFETY TIPS

Keep your gas tank full, or have extra fuel with you, in case of evacuation or power outages. Plus, a full tank will keep your fuel line from freezing.

Make sure tires are full of air and appropriate for the season. Ensure they have adequate tread and have chains or studs available at all times.

Do not drive through flooded areas; even areas where floods have receded can pose a threat. Six inches of water can cause a vehicle to lose control or possibly stall.

If your vehicle becomes difficult to control for any reason, pull over, stop the car, and set the parking brake.

If the disaster or emergency could impact the stability of the roads, avoid overpasses, bridges, power lines and other hazards.

HOW TO BUILD AN EMERGENCY KIT

That vending machine down the office hallway won't feed everyone for very long. Use this guide as a checklist to make sure that you're just as well prepared for emergencies at work as you are at home or on the road. Just in case.

OFFICE EDITION

FOOD & WATER Make sure to have 3 days of shelf stable food, plus a gallon of water.

- 1 - Dust Mask • 2 - Whistle • 3 - Backup Prescriptions • 4 - Backup Eyeglasses • 5 - Rechargeable Flashlight • 6 - Map of local area • 7 - Duct Tape • 8 - Moist Towelettes • 9 - Extra Batteries • 10 - Small Toolkit • 11 - Phone Charger • 12 - Toilet Paper • 13 - Can Opener • 14 - First Aid Kit • 15 - Water Filter

BACKUP TRANSPORTATION

During a disaster situation it's highly likely that public transportation and roadways will be shut down. Maybe it's time to take advantage of that bike rack outside!
