This permit is used with the condition that the lowest floor (including basement) of any new or substantially improved residential structure will be elevated one (1) foot above the base flood elevation. If the proposed development is a nonresidential structure, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved nonresidential structure will be elevated of flood proofed one (1) foot above the base flood elevation. This permit is issued with the condition that the developer/owner will provide certification by a licensed land surveyor of the "as built" lowest floor (including basement) elevation of any new or substantially improved structure covered by this permit.
